

NEW-YORK TRIBUNE.

PHILADELPHIA.

Case of Capt. Lowery—The Storm—Markets—Stocks, &c.

Correspondence of the N. Y. Tribune.

PHILADELPHIA, Friday, Oct. 3, 1851.

There is a general complaint of the scarcity of silver, yet it does not prevent the presentations, at intervals, of services of silver, iron-horse, &c. The Washington Fire Company, a magnificent fire-horse, manufactured of solid silver.

It is the prettiest thing of the kind I ever saw.

During the week ending yesterday, 40,939 tons of coal were transported on the Reading Railroad, and 15,692 tons were shipped by the Schuylkill Canal.

In the United States Commissioner's Office, last evening, the case of Captain Wm. C. Lowery, of the bark Marion, who was charged with manslaughter, was concluded. The allegation was that he caused the cook of his vessel to die, that it produced death a few days after the occurrence. The testimony showed that the cook died eleven days after the fever of the climate, contracted by bathing under the tropical sun, against the express prohibition of the captain. The Commissioner discharged Capt. Lowery from the charge of manslaughter, but held him in \$3,000 to answer for cruel and unusual punishment. A trial was sent up to-day to the Grand Jury.

Our city continuity was visited about 3 o'clock this afternoon with a severe rain storm, from the southward. The deluge is quite welcome, as every thing has been suffering from want of water. The following is a list of the passengers by the City of Manchester.

The FLOW market continues very quiet. There is little or no export demand, and the inquiry for cotton consumption is small. The sales are mostly confined to small lots, for the supply of the city dealers and bakers, at \$4 12, up to \$4 72 for common and extra brands, as in quality. Common shaggy brands are held firm at \$4 12, and \$4 20. The price of 200 lbs. Mexican is \$4 12; 300 lbs. Wheat is dull, but prices remain without change. Sales of good and prime New Southern red at \$6 11 cents per pound, including interest, and there is none coming in.

Cotton is dull, and 200 lbs. cotton is now coming in. Oats are in fair demand, and further sales of Delta oats have been made at \$3 cents per pound. Peninsular maize is dull, and 200 lbs. corn is limited, regular, bakers, &c., 20 cents in both breads, and 60¢.

Things in Cleveland—Ohio Election.

Correspondence of the N. Y. Tribune.

CLEVELAND, Ohio, Wednesday, Oct. 1, 1851.

Officer McKinstry arrested a man from Cincinnati for selling counterfeit Land Warrants, found several in his possession, of the best new style of warrants issued to Mexican soldiers. He passed several in Cincinnati.

This city is increasing rapidly in wealth and population. Two Railroads now center here, one from Cincinnati, the other in operation to Ravenna, 40 miles only, toward Pittsburgh. A line of first-class steamers run from here to Dunkirk, in connection with the Erie Railroad, and the Buffalo.

The Buck Eye Steamship now runs to Buffalo, having a large crew, and lost some baggage overboard, occasioned by the water breaking over her, rendered her somewhat unpopular, though her speed has never been doubted. Capt. Ward has placed his new steamer, the Caspian, on this route. Opposition fare, \$1 50. They leave Cleveland every Tuesday, Thursday and Saturday evening, and Buffalo after-noon evenings. You New Yorkers, coming West, can ride cheap as well as us, by keeping account of the days on which they leave Buffalo.

Ohio has just entered a rousing Wheat crop, and we feel richly. Our New Yorkers are sweating hard. Our Election is close at our doors. The Free Soldiers will poll a heavy vote. Yours,

The Right to Labor.

TO WHOLESALE MERCHANTS,—We believe most of your business is a man of great education and address of considerable business capacity and experience, who writes a good hand and is a good bookkeeper, whose knowledge of trade is very general and varied, being master of those above mentioned and also of the art of book-keeping, and of the principles of arithmetic and of a correct form, but who has the misfortune of being a stranger, often deserves for any honest employment or a good field for him to exert himself, yet who are brought into friendly competition with each other at the very entrance of their career.

Now, Sir, would it not be for the benefit of this great country, as it would doubtless be for the salvation of the tens of thousands of desperate and despairing emigrants who are locked up in the City of New York, to have a man appointed to distribute the lands so superabundant here, and to place it in circumstances favorable for its employment equally for the country and the emigrant?

The development of this plan would occupy too much of your space to-day, but if you signify, in the Tribune, your readiness to publish it, I shall begin one of my weary idle hours in detailing it.

I am, Sir, your obedient s'r,

HIBERNIAN.

RELIGIOUS ITEMS.

GERMAN REFORMED MISSIONS.—The German Reformed Church has an eastern and a western Board of Domestic Missions. The Western Missionary suggests the appointment of some one man at the head of the whole scheme of operations, to lead, guide, direct, and to devote himself wholly and entirely to the work; and complaints that the want of such a superintendent, the missionary operations have been irregular, and without important results.

MONTREAL CHURCHES.—The French Catholic Cathedral, "Notre Dame," in Montreal, is said to be the largest and most imposing building in America. It is capable of seating 10,000 persons, and is 300 feet long, 110 feet wide, 114 feet high, and is flanked by two towers, 100 feet high, each containing the Wesleyan Chapel in Montreal," says a correspondent of the "Evening Herald." It is the largest Protestant Church in Canada, and the most commodious Methodist Church in America, and will seat 3,000 persons.

FREE WILL BAPTIST COLLEGE.—The Theology formerly commanded by the Free-Wil Baptists, to found a college at Elgin, Ill., and discontinued for want of funds, is about to be resumed by the joint auspices of the Close-Communists and Free-Wil Baptists.

RAILROAD READING.—A man in Georgia subscribes for a copy of "The Southern Christian Advocate," to be placed on the Railroad cars between Macon and Oglethorpe, for the use of passengers.

MASSACHUSETTS TEMPERANCE CONVENTION.—The State Temperance Convention, held at Worcester, on Wednesday last, was a very spirited and efficient affair. The number of delegates was nearly 800, including nearly all the old fast friends of the cause from the days of Beecher, Edwards, Tappon, and the striped pig, to the present era of Sons, Daughters and Children of Temperance.
